President of 17th ASEAN ORL-HNS Congress

WELCOME MESSAGE FROM THE PRESIDENT

The ASEAN Otorhinolaryngology- Head and Neck Surgery Congress (ASEAN ORL HNS Congress) is held regularly every two years inside the member countries of ASEAN by rotation as arranged by the ASEAN ORL HNS Federation.

The 16th ASEAN ORL HNS Congress had recently concluded at Chiang Mai, Thailand during 11th 12th and 13th of November 2015 in a grand scale.

The 17th ASEAN ORL HNS Congress will be held in Yangon, Myanmar on 16th, 17th and 18th of November 2017 at Meliá Yangon Hotel, Kabar Aye Pagoda road, Yangon, Myanmar.

The Congress will be hosted by the Myanmar Society of Otorhinolaryngology- Head and Neck Surgery, Yangon, Myanmar. It is my pleasure to welcome all Otorhinolaryngologists and Head and Neck surgeons from all member countries of ASEAN and also from all over the world.

It will promise to be the most exciting and wonderful congress in ASEAN countries, as it will give the ENT Head and Surgeons of the ASEAN community, the golden opportunities to learn, to exchange and acquire the latest technologies and to have interactive discussions with the well-known International Faculties.

The Theme of the Congress is **ASEAN ORL HNS: United and Concerted to Move Forward**. The Theme essentially denotes Asian Value of Solidarity and working together to move forward for the progress of the specialty to attain the highest technology.

The Congress will be highlighted with the Grand Opening Ceremony featuring with Myanmar traditional excitement and surprises that you may rarely experience in the past. In the Gala night all member countries can participate with cultural performances showing Asian Unity.

The Scientific programs will consist of pre-Conference hand-on workshops on the emerging high technology surgical techniques, Special high power opening lectures, plenary sections from the International Faculties and many academic presentations on all branches of Otorhinolaryngology-Head and Neck Surgery. The Debate section on the disputed subjects in ORL HNS will be exciting and lively. We encourage country-wise symposiums and Forums from the member countries to agitate more participations of the ASEAN community. You can learn recent advances in all branches of ORL HNS from international and ASEAN experts.

Apart from scientific programs the delegates are given time for recreation and exploration of Myanmar miracles and wonders in different tastes. Don't forget to try Myanmar national costumes and traditional mouth-watering cuisines. Famous Irrawaddy riverine dinner and Pagan Balloon rides are the musts in Myanmar and you need to book months ahead to secure the seat.

In short the delegates will be well updated and overwhelmed with high technologies and recent advances in all branches of ORL HNS by just attending this Congress. So please don't miss the opportunity.

Kyay Zu Tin Ba Dae (Thank you)

ASEAN OTORHINOLARYNGOLOGICAL-HEAD AND NECK FEDERATION

Since 1980

The aims of Asean Otorhinolaryngological-Head and Neck Federation

- To foster the study and dissemination of all aspects of otorhinolaryngological knowledge, particularly in the region of ASEAN.
- To promote co-operation in scientific exchange amongst the member organizations, and establish closer personal and professional contacts amongst those interested and working in this field.
- To organize and hold an ASEAN Congress every two years and to promote and support other activities as may be deemed necessary for the realization of the above aims.
